

AUSE 1 & 2 | Southeast Asia – Australia

Hamburg Süd's **AUSE** service is has been upgraded to provide you with better transit times from Southeast Asia to both east and west coasts of Australia, covering the major ports and metropolitan cities in the country. We also connect your cargo further south, through reliable transshipment services between Melbourne and Tasmania.

Additionally, a new direct and weekly call has been added at Jakarta, Indonesia. This combined with existing Malaysia & Thailand port coverage will offer our customers with a seamless logistic chain within Southeast Asia - be it through a wide Intermodal Network or local Customs House brokerage service.

AUSE 1 & 2 are designed to serve the **best transit times** to Australia!

Together with our state-of-art reefer and dry equipment fleet, your sensitive perishable or over dimensional cargoes could all be handle with care, ease and speed – **no matter what.**

Our highly personalized customer service, specialized cargo care and local expertise are at your disposal through our 250 offices worldwide.
